ForeVive Lite gets you going

Running, walking, climbing, or biking – your new Forever smartwatch will help you **stay active** and in shape regardless of your favourite sport. The watch processes your activity data and visualises it using easy-to-read graphs, which you can analyse on your phone, using the Forever Smart app.

The app also allows you to set **planned goals, such as daily calories burned, steps walked or number of hours of sleep**, as well as monitor your progress in real time. This will help you find motivation to work out even on cold, rainy days.

ForeVive Lite can handle any workout

There is more to a great smartwatch than a decent feature set – without a durable case, you would not be able to use them anywhere you want. **ForeVive Lite is splash resistant and IP67-certified.** This means it will easily survive a long shower or workout during a rainy day. The Forever smartwatch also features a metal case, which protects the delicate components of the watch and makes it highly durable.

Included with the ForeVive Lite you will find a strap made of **high quality silicone - it is soft and pleasant to the touch, yet very durable.** The strap fits snugly against your skin, so it will not fall off your hand during your workout.

Forever smartwatch - compatible with iOS and Android

You can enjoy the full feature set of your new watch regardless of which smartphone brand is your favourite. **The Forever Smart app is compatible with both iOS and Android.** The stable Bluetooth connection keeps your smartphone connected to the watch even if it is 10 metres away, which allows you

to control music playback or podcasts even when you do not have your phone on you.
